## Request for Inquiries (RFI)

November 9, 2022

### Wheelchair/Mobility Ramp Builders & Installers

Background: Otsego Rural Housing Assistance, Inc. (ORHA) is a 501c(3) not for profit organization providing grant funded home repair, home rehabilitation, and accessibility services to low-income Otsego County homeowners. ORHA typically administers \$300,000 to \$500,000 annually in such grants.

We have continuous need for carpenters and other contractors qualified to install wheelchair ramps – wood, metal, or combination – at the homes of elderly or disabled clients.

All interested & qualified contractors are welcome to respond to this notice and receive information about current and forthcoming projects. Certified minority (MBE) and woman-owned enterprises (WBE) and service disabled veteran owned enterprises (SDVOB) are especially encouraged to respond.

Contractors must have liability insurance; contractors with multiple employees must have workers' compensation insurance.

ORHA has been in continuous operation since 1984. We pay promptly for all work performed.
